1 All of microtype

The quick brown fox jumps over the lazy dog, and the lazy dog watches the quick brown fox jump again; typesetting systems break such paragraphs into lines by minimising badness, and a small stretch or shrink of each font lets the lines come out more even than the interword glue alone allows. Hyphenation, protrusion of punctuation into the margin and expansion of the glyphs all take part in the choice of the breakpoints.

"Quoted text," she said — and (in brackets) a few more words: efficient office affairs, fluffy waffles; differentiation, internationalisation, characteristically incomprehensible. The quick brown fox jumps over the lazy dog, and the lazy dog watches the quick brown fox jump again; typesetting systems break such paragraphs into lines by minimising badness, and a small stretch or shrink of each font lets the lines come out more even than the interword glue alone allows. Hyphenation, protrusion of punctuation into the margin and expansion of the glyphs all take part in the choice of the breakpoints.

LETTERSPACED CAPITALS and m o r e o f t h e m, then Small Capitals, Tracked. Interword spacing after punctuation: a, b; c. D: e! F? g. **Bold.** next *italic,* next.

French kerning before colons : semicolons ; and exclamation marks ! or questions ? The quick brown fox jumps over the lazy dog, and the lazy dog watches the quick brown fox jump again ; typesetting systems break such paragraphs into lines by minimising badness, and a small stretch or shrink of each font lets the lines come out more even than the interword glue alone allows.
