One. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Two. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Three. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Four. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Five. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its

output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Six. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Seven. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Eight. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Nine. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the

pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Ten. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Eleven. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Twelve. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.

Thirteen. This paragraph is one of many that fill several pages of text set with plain TEX's macros and its output routine, which adds a footline with the page number to every page. The page builder breaks the pages, and the lines are broken by the paragraph builder as usual: with glue that stretches and shrinks, and penalties for clubs and widows.
