Page 1 of the loop: 0 pages shipped before it, none before the page before. An even number.

Page 2 of the loop: 1 pages shipped before it, 0 before the page before. An odd number of pages shipped so far.

Page 3 of the loop: 2 pages shipped before it, 1 before the page before. An even number.

Page 4 of the loop: 3 pages shipped before it, 2 before the page before. An odd number of pages shipped so far.

Page 5 of the loop: 4 pages shipped before it, 3 before the page before. An even number.

Page 6 of the loop: 5 pages shipped before it, 4 before the page before. An odd number of pages shipped so far.

Page 7 of the loop: 6 pages shipped before it, 5 before the page before. An even number.

Page 8 of the loop: 7 pages shipped before it, 6 before the page before. An odd number of pages shipped so far.

Page 9 of the loop: 8 pages shipped before it, 7 before the page before. An even number.

Page 10 of the loop: 9 pages shipped before it, 8 before the page before. An odd number of pages shipped so far.

Page 11 of the loop: 10 pages shipped before it, 9 before the page before. An even number.

Page 12 of the loop: 11 pages shipped before it, 10 before the page before. An odd number of pages shipped so far.

Page 13 of the loop: 12 pages shipped before it, 11 before the page before. An even number.

Page 14 of the loop: 13 pages shipped before it, 12 before the page before. An odd number of pages shipped so far.

Page 15 of the loop: 14 pages shipped before it, 13 before the page before. An even number.

Page 16 of the loop: 15 pages shipped before it, 14 before the page before. An odd number of pages shipped so far.

Page 17 of the loop: 16 pages shipped before it, 15 before the page before. An even number.

Page 18 of the loop: 17 pages shipped before it, 16 before the page before. An odd number of pages shipped so far.

Page 19 of the loop: 18 pages shipped before it, 17 before the page before. An even number.

Page 20 of the loop: 19 pages shipped before it, 18 before the page before. An odd number of pages shipped so far.

Page 21 of the loop: 20 pages shipped before it, 19 before the page before. An even number.

Page 22 of the loop: 21 pages shipped before it, 20 before the page before. An odd number of pages shipped so far.

Page 23 of the loop: 22 pages shipped before it, 21 before the page before. An even number.

Page 24 of the loop: 23 pages shipped before it, 22 before the page before. An odd number of pages shipped so far.

Page 25 of the loop: 24 pages shipped before it, 23 before the page before. An even number.

Page 26 of the loop: 25 pages shipped before it, 24 before the page before. An odd number of pages shipped so far.

Page 27 of the loop: 26 pages shipped before it, 25 before the page before. An even number.

Page 28 of the loop: 27 pages shipped before it, 26 before the page before. An odd number of pages shipped so far.

Page 29 of the loop: 28 pages shipped before it, 27 before the page before. An even number.

Page 30 of the loop: 29 pages shipped before it, 28 before the page before. An odd number of pages shipped so far.

The end: 30 pages shipped before this one, 29 before the page before.
